Some further tips for your final inspection:

What does "Clean" and "Fair Wear & Tear" mean?

Carrying out a Final Inspection when tenants vacate the property involves comparing the Entry Condition Report completed at the commencement of the tenancy with the final condition in which the tenants leave the property at the end of their tenancy. Legislation states that the tenant must leave the property in the same condition as it was at the commencement of the tenancy, taking into consideration Fair Wear & Tear.

As Property Managers this is a challenge we deal with every time our tenants vacate. Our office has very high expectations and standards when it comes to carrying out the final inspections. It's our expectation that the property is to be left in as near as the same condition as it was at the commencement of each tenancy.

What does Fair Wear & Tear mean? We must first determine if the property has been left clean as we're often told of marks claimed to be "fair wear and tear" but can be cleaned off. The definition of Fair Wear Tear is: "Minor Signs of usage over a protracted period of time".

Areas that are not considered Fair Wear & Tear:

- Holes in fly screens
- Marks/damage to carpets
- Marks/damage to walls which include inside robes
- Marks/damage to drapes
- Dead insects in light fittings
- Dusty/dirty window tracks, door tracks and robe tracks
- Chipped tiles

Our simple policy is this: "If it's clean and undamaged when tenants move in, then we expect it to be in the same condition when they move out."
